K. COX & CO., COTTLARS, MAKE YOUR SADDLE FOR OUR STANDARD WHIP CO.

WORTH MILLIONS to the Human Family—CELESTINE, BEEF AND IRON.

A FABULOUS DISCOVERY.

The best and deadliest of this vegetable is such a deadly poison that most people imagine. The writer, who is familiar with its virtues is acquainted with many more than he is willing to admit. The secret of its power lies in the fact that it is a powerful stimulant, so much so that it becomes as strong as nerve as other people. We have known of its power for many years, but have not been able to get it out of the country. To this we may add that we received of Dr. Henley, of Portland, Oregon, a bottle of "The Best Remedy for Coughs, Colds and Rheumatism." It is a preparation called Celery, Beef and Iron. What it is remains a secret, but we have been engaged in labor unknown to the nerves should use "Celery, Beef and Iron." We find that this is the best remedy for the nerves.

DR. HENLEY'S CELERY, BEEF AND IRON.

(Lester's Extract, Vegetable Nutritive and Invigorant.)

FOR THE CURE OF THE BRAIN.

# DAILY RECORD-UNION

Entered at the Post Office at Sacramento as second class matter.

## THIS MORNING'S NEWS.

In New York yesterday Government bonds were quoted at 125% for 1907, 113% for 4½%, 108½ for 1908; 100 for 35, 100 for 30; silver bars, 12½.

Silver in London, £10 12½d.; consols, 102 5½d.

5 per cent. United States bonds, consols, 103 4d. 12½%; 4½%, 115%.

In San Francisco dollars are quoted at 88½-90 cents.

The stock market opened in San Francisco yesterday morning with a sharp advance over Tuesday night's prices in nearly every stock on the list.

There are about 4,000 Chinamen at Winnipeg, Manitoba, seeking work on the Canadian Pacific Railway.

The poorhouse near Hartford, Van Buren, Iowa, Michael Jackson, yesterday, fourteen of the trustees publishing in the newspaper.

Republican State convention assembled yesterday in Maine, Massachusetts, New Hampshire, Iowa, Wisconsin and Vermont.

The Michigan National Greenback State convention met yesterday at Kalamazoo.

The Massachusetts Democratic State Convention was held at Worcester yesterday.

Several of the striking laborers in the African blood fields were killed and wounded by police.

A uniform bank has been organized by the Supreme Lodge, Knights of Pythias.

Alfred Ingalls, charged with murder, hanged himself in the jail at Cincinnati yesterday.

Henry W. Cannon, of Minnesota, will succeed Comptroller Kino, and James Connally, of Illinois, as Comptroller of the Treasury.

A flight of elevators took place at Buckeye Beach, N. Y., yesterday.

The township Crookville, from Bombay for England, lost six soldiers on the voyage from cholera.

It is denied that pleuro-pneumonia prevails among the cattle in Pennsylvania, the disease being simply a catarrhal affection.

Henry George addressed 5,000 people in New York Tuesday evening.

A heavy storm in Buenos Ayres caused great damage to property and killed four children.

A revolt of slaves has occurred in Vargas, Brazil, and many outrages are being committed.

The National Bank of Monte de Piedad—the oldest bank in Mexico—closed its doors yesterday.

Dynamite parades were found yesterday under the Parliament buildings at Toronto, Ontario, causing great excitement.

John B. Hay committed suicide on the 24th in Plum Valley, Tehama county.

The Malin-schutzen Greenback State convention met in August, yesterday, and nominated W. T. Eaton for governor.

Edward Thompson attempted to kill his wife in Story county, Iowa, and then committed suicide.

In a battle in Spain between the Government and insurgents, the former were victorious.

In an attempt to rob a bank at Medicine Lodge, Kas., yesterday, by four men, the Cashier was killed and the President fatally wounded.

The straightforward Republican State Convention of Virginia assembled in Richmond yesterday.

## THE REDEMPTION OF THE RIVER.

It is one day stated that the needed appro-

priation for the improvement of the Sacramento river will not be advised by the House committee, and on the next that it will.

Probably the most we can ex-

pect will be twenty-five per cent. of the amount of the engineer's estimates, or about \$10,000, for extracting snags. But, as excessive of this neglect, we are told

that the unexpended appropriation of two years ago is available, or about \$210,000.

That will do something, but even that sum cannot be applied except under direction of the Secretary of War, and as he does

not approve the recommendations of the engineer as to the application to be made of the sum, no himself set foot inquiry in the direction of other methods, there is

every probability that nothing at all in the way of improving river navigation will be done this year. It is unfortunate, in deed, that public interests should thus be sacrificed to the timidity of a political party that fears to enter a Presidential campaign with a heavy river and harbor bill. Once in four years the country must suffer for lack of necessary attention, that a party may exhibit an economic balance sheet. Instead of legislating for the best interests of the people, political power must be kept in view, and only that done that contributes to its enjoyment by partisans. It is precisely such motives as these that disgrace the political system, and make public concern a mere footfall for ambition. A great public interest must suffer that politicians may advance their ends; that is the rule of action at this time and in the case in hand, since it is admitted that the work demanded for the Sacramento river must be performed, and that if it is not done speedily the cost of reclaiming the river will be fourfold, while the loss to the people of California by impeded navigation will be almost infinite.

The San Francisco Call recently re-

marked that our rivers "should be pre-

served, at whatever expense," but "the Government will scarcely spend money to impound debris while the work of making new debris is going on." This is now new thing to state, and while it has some force, it is, after all, an insufficient excuse. The fact is that while the valley people are doing their utmost to legally stop the contribution of "new debris" the Government could well employ its engineers and means in river improvement that must be done irrespective of the hydraulic mining question. The depredations already made in the streams and below the influence of hydraulic mining, the shoals, the emissions in banks, etc., must be cared for, and the ability of the river to clear itself stimulated and its possible diversion from its present channel prevented. Of course the destruction of navigation, because the causes are not at once wholly removed.

The New York Tribune is entitled to the full credit for this apt epigram: "Matthew Arnold defines religion as 'morality touched with emotion.' If Mr. Arnold were intimately acquainted with the Democratic party of this country he might define it as 'ineffectually censured with cussedness.'

The fact that a State election is approaching is certainly to be adduced from the symptoms manifested among our Southern brethren of the press—they have started the regular demand for a division of the State. They believe in the dropping water that tears away at the stone.

There is a growing sentiment that American trade abroad would be greatly influenced by the improvement of our consular service—the substitution of sterling business ability for political services, and the increase of salaries to com-

mand competency.

England proposes to buy horses in the United States for her cavalry, artillery and omnibus service. This testifies to a recognition of the improvement made in the stock of this country, and it comes from a source least expected.

the stream, and the filling in anew of its bed. We believe it would have that effect. So, too, if efforts were made to prevent the debris in canyons from descending into the river, the Government would not quietly submit to such restraining works being overthrown and destroyed by new floods of silicous. The river should not be destroyed, either by hydraulic miners or governmental neglect, and both agencies are now pursuing a policy that will work its utter ruin. Hydraulic mining interests can want nothing better in the half on the part of Congress than inaction. For it must be clear to the dispassionate observer that effective steps toward reclamation would certainly result in the arrest of every agency that tended to defeat the ends arrived at.

## ROBERT T. LINCOLN'S CANDIDACY.

The Continent continues its warm advocacy of Secretary Robert T. Lincoln for the Presidential nomination, despite the fact that the popular expression, so far as made, is that Mr. Lincoln should be placed only second on the ticket. The Convention, on reassembling, heard the report of the Committee, and appointed committees as follows:

—On Finance,—C. H. Campbell, M. A. Johnson, W. H. Byington, of Sonoma; T. H. Muller, of Santa Barbara; J. A. McGuire, of San Francisco; J. A. Orr, of Plumas; Fred. A. Campbell, of Alameda; was made Secretary.

A resolution to refer all resolutions without debate to a committee to act upon them was adopted, with a provision that the committee report its conclusions to the Convention.

The names of candidates were announced, to allow the Chairman to make up the committee. The recess was protracted to about an hour.

## COMMITTEES APPOINTED.

—On Finance,—C. H. Campbell, M. A. Johnson, W. H. Byington, of Sonoma; T. H. Muller, of Santa Barbara; J. A. McGuire, of San Francisco; J. A. Orr, of Plumas; Fred. A. Campbell, of Alameda; was made Secretary.

The names of candidates were announced, to allow the Chairman to make up the committee. The recess was protracted to about an hour.

## RESOLUTIONS.

HALL OF ELK GROVE LODGE, NO. 274, I.O.O.F., El Dorado, April 29th. The Republican State Convention was held at El Dorado at 1:30 P.M. by A. C. Conner, President, and the Convention Committee.

In my opening address I referred to the great necessity of harmony in the Republican party. The members of the Convention are so evenly divided, and the desirability of making California an undivided state, that I have no objection to the adoption of the resolution.

It was voted that the Chair appoint a committee of five on Credentials, two from each division, to consider the same, and to report to the Convention.

It was voted that the Convention adjourn to the 1st of May.

It was voted that the Convention adjourn to the 1st of May.

Hicks &amp; Co.—Trunks, valises, etc. Mechanic's Supply, monthly. Neueng &amp; Lages—Star Mills and Malt House. Wanted—Shirtwaist for a young couple. Edward Kieblitz has sold to J. Strutz.

## LOCAL INTELLIGENCE.

CHORAL SOCIETY CONCERT.—The attention upon the concert of the Ladies' Choral Society at the Congregational Church last evening was not commensurate with the encouragement the ladies should receive for their efforts to promote music culture in the community. The rostrum on which the singers appeared was elaborately decorated with natural flowers. Mrs. Pleissner Lewis was musical director, and Professor Otto Fleischer organist for the evening. The organ was used exclusively for accompaniment, the programme consisting of a chorus (twenty voices), "Approach of Spring," by Keller; "Elsa's Dream," by Wagner, sung by Mrs. Lewis; and for an encore a solo, "The Young Girl," by Wagner, with double trio of voices in support. "The Clock has Struck," the support being Miss La Rue, Manning and Cooper, Mrs. Griffith, Mrs. Shaw, Mrs. Renuart and Mrs. Lewis; due by Miss La Rue and Mrs. Koenzenstein; German song by Mr. Urban, of San Francisco, whose vocalization greatly pleased; and a hearty recall. His voice was one of the clearest of strength and purity of tone. The second part of the cantata, "The Erl King's Daughter," by Grade, closed the programme, with Mr. Urban and Mrs. Lewis in the lead. The audience was greatly gratified by the society, but one exception of which was highly creditable to it. The instrumental part of the programme consisted of organ solos. Prof. Fleischer overcame his nervousness, and his organ and Communion in G, by Bafile. This last name was the gem, and was played with a depth of feeling that was an agreeable surprise. In all the selections the organization deserved well, and the harmony was excellent. The society certainly gave a pleasing and extremely successful entertainment musically, but financially it must have been very disheartening.

THE RIVER APPROPRIATIONS.—The following concurrent resolution, introduced by Assemblyman Cannetti on Monday last, passed both houses of the Legislature yesterday, and has been telegraphed to Washington: "Whereas, It is reported that the Secretary of War refuses to permit the expenditure of the appropriation made by Congress of the United States of America for the improvement of the Sacramento and other rivers and their tributaries situated within this State; whereas, the demands of commerce, the interests of the people, and the protection of the great highways of travel imperatively demand that every effort should be made to maintain them so that their navigation for commercial purposes may be uninterrupted and the realization of the improvements to be made in the best secure that result; whereas, the flow of debris in the rivers of this State has been restrained under the decision of the Circuit Court of Appeals; and, therefore, the reason advanced by the War Department, as long as that was permitted it was useless to expend public moneys in their improvement, no longer exists; therefore, be it resolved, That we, the Senators and Representatives in Congress be requested to use all honorable means, either by personal application at the War Department, or by action of Congress, or otherwise, on the part of the Government, to secure the removal of the proviso of the Rivers heretofore named. Be it further resolved, that his Excellency, the Governor of the State of California, be requested to send a duly authenticated copy of this resolution to the Secretary of War, Hon. Robert T. Lincoln, and to our Senators and Representatives in Congress."

NO DODGING DODGE.—Day before yesterday a deputy in a State office sold his pay for the months of May, June, July and August to Charles Dodge. He had received a salary of \$133 per month, so the power of attorney called for \$553.33. Yesterday morning Dodge ascertained that the man and his wife had left by the morning train for San Francisco. He reported to the Capitol and ascertained that he was astounded in fact that Stevens was no longer an employee in the office where he had been, nor would it again be expected. Charles Dodge had been bitten several times but on no former occasion so severely as this. He thought he must act promptly, and so did. Encouraged by what he was doing, he went immediately to the residence of his debtor, effected an entrance thereto, removed all the furniture, even to the taking up of the carpet, and laid the same to take an acquaintance. The man, who had ordered them sold. Last evening his friends were of the opinion that he had acted hastily, and had laid himself liable to prosecution. Dodge, however, does not say. He thinks he is able to take care of himself without either law, lawyers, or officers. His friends, and also those of the other man, are anxious to see the outcome.

UNION SUNDAY SCHOOL PICNIC.—The Union Sunday School picnic, in which ten Sabbath-schools will participate, takes place to-morrow at Corinth's Grove, on the line of the Sacramento and Placerine Railroad, in the foothills. The scenery is beautiful, wild flowers in abundance, and the ground sufficiently dry to prevent those that have been taken from falling cold. A number of interesting games will be introduced. Uncle John Dwyer will send up balloons, and a band will render concert music, so that the host of children and their friends may anticipate a happy time. The band will be led by Mr. Green, a tenor, and will make parades of all kinds for valuable prizes. The dancing platform has been put in excellent condition, and the Hussar Band will furnish music for dancing.

BUSINESS CHANGE.—E. Kleibitz has sold to Julius Strute the saloon on Fourth street, between J. and K, with which he has been connected for twenty-nine years, and which is doubtless one of the oldest, if not the oldest, in Sacramento. Strute, a carpenter, has lived in Sacramento during the time mentioned, having heard of Kleibitz &amp; Green. Mr. Green retired from the partnership about a year ago, and is at present in San Francisco.

SERIOUS ACCIDENT.—About 4:30 p. m. yesterday Peter Grillo, a stranger in the city, entered the ladies' waiting-room at the depot and sat down. Soon afterwards he was seen to sit and was walking out when he was seized with a violent pain, and falling against the sash in the door of the ticket office, the broken glass cutting his scalp in a shocking manner. He was taken to the Railroad Hospital to have his injury attended to.

COMMERCIAL.—Arrived yesterday, steamer Doyer, from the upper Sacramento, with large load of wood; steamer John Joquin No. 3, from San Francisco, with merchandise; steamer Sam Franklin, freight boat, from San Francisco, with large load of grain. Sailed steamer Doyer for Sacramento, April 28, to Miss Linda Munson. He died yesterday morning, and is at present in San Francisco.

ARRIVED.—Peter Grillo, a stranger in the city, entered the ladies' waiting-room at the depot and sat down. Soon afterwards he was seen to sit and was walking out when he was seized with a violent pain, and falling against the sash in the door of the ticket office, the broken glass cutting his scalp in a shocking manner. He was taken to the Railroad Hospital to have his injury attended to.
